

The Benefits

Glass Reinforced

High strength to weight ratio

UV Stabilised

Highly resistant to corrosion and weathering

Gel Coated Sheets

Better colour retention than other conventional sheets

◀ We have a great range of products available in various Box and Tile profiles in a wide variety of colors for domestic roofing.

Our products are ideal for industrial roofing. It provides outstanding protection from exposure to acids, alkaline solvents and moist conditions.

Crimped sheets and curvable flat sheets are also available for use in factories, walkways, car parks and shades.
